THRILLING EXPERIENCE. Yesterday about noon when the southerly gale prevailing w s at its height, a boat about 14 feet long carrying about 25 yarr's of canvas could be seen once in a while between the billows of the Potomac, coming from the Maryland shore, every dash filling it almost full of water and drenching the occupants. To those Club this evening at 8 o'clock in Lee on this side it was apparent that it was Camp Hall. an exceedingly reckless if not a dangerous venture, taking into consideration that the occupan's consisted of three womea and two men, all of Washington who had been on plersure bent since the night before. After a long struggle and a good ducking they reached the flats just below the str yard and grounded. Stopping long enough to free the craft of water they, by superhuman effor's, nearly reached the shore in the boat and proceeded to go the rest of the way on foot. Not being able to walk the water they sark in mud and water about one and a half feet, left the boat and wended their way to the steamboat wharf where they embark d for their native city. The roughness of the sea and the plunging of the craft caused the mast to break out, and but for the set of friends in placing it in harbor, today, it would have been a total wreck

A PROTEST,

Repres utatives of the East Washington, the South Washington, the South east and Northeast Citizens' Associations and individual citizens of that city and Alexandria appeared before the Commis-sioners of the District of Columbia at a public hearing Saturday morning and entered vigorous crotest against the Commissioners turning over to the \$1,500,000 demanded by it for completing its part of the work in connec-

Representative Charles U. Cardo of Alexandria appeared and denied the right of the railroad company to demand the certificate and of the commissioners to give it. ate criticised the railroad company for attempting to evade the honest intent of the law of Congress by making the demand when, he says, it has neither completed the Uni.n station nor broken ground for the substation for the convenience of the southern traffic. Among others who spoke against the issuing of the certificate was Mr. Leo. P. Harlow,

WISH TO HONOR JAMES R. CATON ticians who study the merits and de merits of public men there is a sentiment in favor of James R. Caton, of Alexandria, for Lieutenant Governor.

Mr. Caton long has been a member of the House, and as chairman of the committee on privileges and elections be is the Democratic floor leader of that body. Mr. Caton is a good parliamentarian and a ready debater, though he is singularly gentle in his manners. No man can recall the time when, even in the most heated debate, he was even

driven to say anything sharp or cutting.
In view of all these facts, as well as in recognition of his taithful party services, the democratic powers that be openly admit that they would like to honor Mr. Caton, - [Richmond Journal.]

Do not Crowd the Season. The first warm days of spring bring with them a desire to get out and enjoy the exhilarating air and sunshine. Children that have been housed up all winter are brought out and you wonder where they all came from. The heavy winter clothing is thrown aside and many shed their flamels. Then a cold wave comes and peop'e say that grip is spidemic. Colds at this season are even more dangerous than in mid-winter, as there is more danger of pneumonia Take Chamberlain's Cough Remedy, Take Chamberlain's Cough Remedy, however, and you will have nothing to fear.
